

Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

		TTF 4.6
		190735
Manufacturer		tecalor
Space heating energy efficiency class under average climate conditions, medium- temperature applications		A+++
Energy efficiency class, space heating under average climate conditions, low-temperature applications		A+++
Rated heating output under average climate conditions for medium-temperature applications (P rated)	kW	4
Rated heating output under average climate conditions for low-temperature applications (P rated)	kW	4
Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications ($\mbox{$(\Gamma_{\!\!\!\! s})$}$	%	153
Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (η s)	%	195
Annual energy consumption under average climate conditions for medium-temperature applications (QHE)	kWh/a	1934
Annual energy consumption under average climate conditions for low-temperature applications (QHE)	kWh/a	1723
Sound power level, indoor	dB(A)	38
Rated heating output under colder climate conditions for medium-temperature applications (P rated)	kW	4
Rated heating output under colder climate conditions for low-temperature applications (P rated)	kW	4
Rated heating output under warmer climate conditions for medium-temperature applications (P rated)	kW	4
Rated heating output under warmer climate conditions for low-temperature applications (P rated)	kW	4
Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications ($\mbox{$(\Gamma_{\!s})$}$	%	157
Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications ($\mbox{$(\Gamma)$}$ s)	%	201
Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications ($\mbox{$(\Gamma_s)$}$	%	147
Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications ($\mbox{$(\Gamma)$}$ s)	%	187
Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)	kWh/a	2252
Annual energy consumption under colder climate conditions for low-temperature applications (QHE)	kWh/a	2000
Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)	kWh/a	1300
Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	kWh/a	1159
Sound power level, outdoor	dB(A)	0
